

	Description of Work Required to be Done	Owner	Material to be purchased
1	Main gate has some touch up spots that need to be painted yellow		Paint and brushes in seacan
2	Paint the two steel hand thrower tables yellow		Paint and brushes in seacan
3	There is a low spot just inside the main gate on the left that collects water		Loads of fill
4	Both flags need to be replaced. Flags are in the container, I just need to get new rope.	Dave Greene	All material is in the main seacan 1/4" Braided nylon rope x 100 Ft
5	Are we going to put in some sort of flaging system at 25/50 and in the pistol bay as requested by the CFO? Where and how are we going to install them?		Need to order pipe for poles
6	Some of the angle iron on the 25/50 enclosure needs to be painted black.		3 Gals of paint in seacan & lots of paint brushes, 2 wire brushes in seacan
7	We need to follow through on getting the 25/50 firing point paved. The motion was passed two years ago to do it. If we have the manpower can this be dug out (3") in preperation to paving?		Call paving contractor to get job done. Does Debley do any paving or just run the plant?
8	Pick up garbage behind 25 and 50 yard target holders and replace holders and install lane identification markers.		2 boxes of Garbage bags. New lane markers are in the Seacan
9	Some of the 2"x4" cross braces need to be replaced and some of the rubbers as well on the 100 yard target line		Require 12 ea 2" x 4" x 12 foot
10	Replace the lane markers on the 100 yard line		New signs install in October
11	Food and drink for the work detail		
12	Take all the shooting benches and give the feet a good coat of wood preservative		1 Liter of Endcut

13	Install new pipe culvert on road between existing and 25/50 firing line?		There is a 8" dia pipe x 10 foot in front of 200 yard firing point
14	Level ground at 100 yard firing point for benches		
15	Purchase 360 feet of 06/3 cable and run power to new seacan at the 25/50 yard line. Expenditure already approved.		Have pricing from Greybar for cable. This may take a second work detail to complete.
16	Need to mount plywood to inside wall of new seacan on 25/50 yard line to mount electrical panel		Get 3/4"x4'x8' plywood and cut to suit.
17	There are 12 complete target frames in the seacan. One frame only needs the rubber replaced. This year I would like to see the frames for the 25 yard holders be 5 1/2ft or 6ft so that when they are shot at from a standing position the bullet is captured in the backstop and not hitting the range floor at 50 yards and bouncing over the back stop.		I have contacted Steve McLean at Source Atlantic about getting us more conveyor belting. Order 12ft 2"x4" for the longer legs. We should have enough screws

	Description of Work Required to be Done	Owner	Material to be purchased
1	The metal shroud around the lock on Pistol Bay seacan needs to be painted black		Paint and brushes in Main seacan
2	Seacan needs to be leveled		Hydraulic jacks or backhoe to lift it up
3	Roof is leaking- Needs repaired or put on a pitched one		Plastic cement or order trusses, plywood and sheet metal roofing
4	Seacan is infested with mice. Fix holes		Mouse bait and caulking
5	Install new Range Rules sign on seacan in Pistol Bay		Sign is made and is in the Pistol Bay seacan
6	A container for misfired rounds in the pistol bay needs to be installed.		Jody has sign and ammo box
7	We have obtained a roll of ¾" x 6" wide rubber that needs to be cut into pieces to make targets for the pistol bay.		Delivered to Pistol Bay Apr 16/16
8	Put together new shelving unit		Already purchased and in seacan
9	Do we want to make another Safety Area bench for the other bay?		If so, we need another sign and lumber

Description of Work Required to be Done	Owner	Material to be purchased
---	-------	--------------------------

1	Some black touch up paint needs to be done on the #1 thrower platform.	Dave Greene	Paint and brushes in seacan
